

GenLox™ *Alternate Power Connection*

Integrated Load Center & Shelter Solutions

The GenLox™ is designed to replace commonly used generator connections. The GenLox eliminates compatibility issues, miswired plugs from market to market, and the need for multiple costly receptacles and plugs.

ELECTRICAL FEATURES

- Appropriate for 1 ϕ and 3 ϕ applications
- Rated up to 400 A, 120/208 VAC
- Plug rated 2/0 to 4/0 AWG
- Receptacle rated #4 to 4/0 AWG
- Male or female connection options
- Color coded design for safety
- Solid brass machined connectors
- UL 1008 Listed

MECHANICAL FEATURES

- Left or right mounting options
- Lockable cabinet design prevents tampering when connected
- Adapts to multiple existing receptacle bolt patterns
- Captive cover keeps insects and rodents out
- No special tools required for connection
- Includes internal cable strain relief
- Dimensions: 24"H x 9" W x 9"D
- Weight: 20 lbs
- UL NEMA Type 3R outdoor rating (pending)
- Powder Coated Aluminum
